

IONNIC | 

12-24V, LED Rotating Amber Beacon

www.ionnic.com

#103000

DESCRIPTION

12-24V, LED Rotating Amber Beacon with 3 bolt mount. Powered by 18 x 3W high powered LED's rated at SAE J845 Class 1. Includes 11 different flash patterns. Equipped with rugged polycarbonate lens & die-cast aluminium lens. IP67 weatherproof protection. ECE approved.

Comes with 5 year manufacturing warranty.

FEATURES

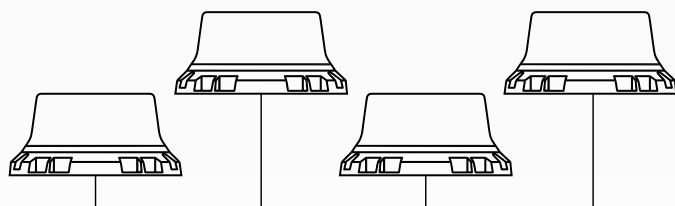

- SAE class 1 rated output
- Aerodynamically low profile
- Multivolt: accepts 12-24 volt connection
- Features 11 different flash patterns
- Vibration resistance rated to SAE J575
- Equipped with rugged polycarbonate lens & die-cast aluminium base, provides increased heat disipation area.
- Comes with 5 year manufacturer warranty

TECHNICAL SPECIFICATIONS

Flash Patterns

No.	Flash Pattern	No.	Flash Pattern
1	• Quad burst	7	• Slow rotation
2	• Quad flash	8	• Normal rotation
3	• Double flash	9	• Fast rotation
4	• Single flash	10	• Cycle scan
5	• Fast flash	11	• Steady on
6	• Quad & single flash		

Flash patterns are synchronizable between IONNIC 106 & 103 series.

Voltage	• 12-24 Volt
Current Draw	• 3.2A @ 12 Volt
Flash Patterns	• 11 flash patterns
Lens Colour	• Amber
Lens Material	• Polycarbonate lens
Base Material	• Aluminium base
IP Rating	• IP67 rated
LED Count	• 18 x 3W high powered LED
Operating Temperature	• -30°C to 50°C
Dimension	• 161mm dia x 67mm high
Pre-wired Cable	• Yes, 230mm
Approvals	• ECE R10, ECE R65, SAE J845 Class 1
Warranty	• 5 year manufacturer warranty
