

10,000mAh Rapid Charge Power Bank

#PB10

www.projecta.com.au

DESCRIPTION

Lithium-ion cell rapid charge power bank. Rated at 10,000mAh, this power bank offers up to 18W of fast charge action capable of charging MacBook, drones and other digital devices with ease. A maximum charge, requiring only 3.8 hours, allows up to 100 extra minutes of additional run time on your more power demanding devices.

High level built protection. Extremely compact, fits inside a pocket.

FEATURES

- Compact and durable, fits inside a pocket
- 10,000mAh power bank capacity
- 18W of fast charge action allows up to 100 minutes of additional run time on your MacBook / laptops
- Equipped with a high level built-in protection
- Suitable to charge MacBook/laptops, drones & other digital devices

TECHNICAL SPECIFICATIONS

Suitable to Charge:

Device Type	Estimate No. of Full Charge (Max power bank)
Tablet	• 2-4 Times (Fully charges tablet 2-4 times)
Phone	• 2-4 Times (Fully charges phones 2-4 times)
Drone	• 1-16 Times (Fully charges drones 1-16 times)
MacBook	• 100 minutes (100 minutes additional run time)
Laptops	• 100 minutes (100 minutes additional run time)

Recharge Time	• 3.8 hours (full 100% power bank charge)
Current Rating	• 18 Watt max
Output (USB-A)	• DC 5V 2.1A/9V 2A/12V 1.5A (18W)
Output (USB-C)	• DC 5V 3A/9V 2A/12V 1.5A (18W max)
Input	• DC 5V 2.1A/9V 1.4A/12V 1A
Battery Type	• Li-ion battery
Capacity	• 10,000 mAh @ 3.7V (18.5Wh)
Dimensions	• 79mm x 59mm x 27mm
Weight	• 190 grams
